DATED; 18TH AUGUST, 2004.

P.C.;

1. By this petition, the petitioner seeks quashing of the order or decision by which the petitioner and the respondent no.3, the shop, are required to split the units half and half between the two. We see no reason to interfere. In such circumstances as the aim of having public distribution system is to reach as much of the population as and through as many shops as it can have, no right of the petitioner is infringed. In the circumstances, the petition fails and it is dismissed.
